

Artificial Intelligence and Machine Learning

Christian Cabrera Jojoa

Senior Research Associate and Affiliated Lecturer

Department of Computer Science and Technology

University of Cambridge

chc79@cam.ac.uk

The Machine Learning Context

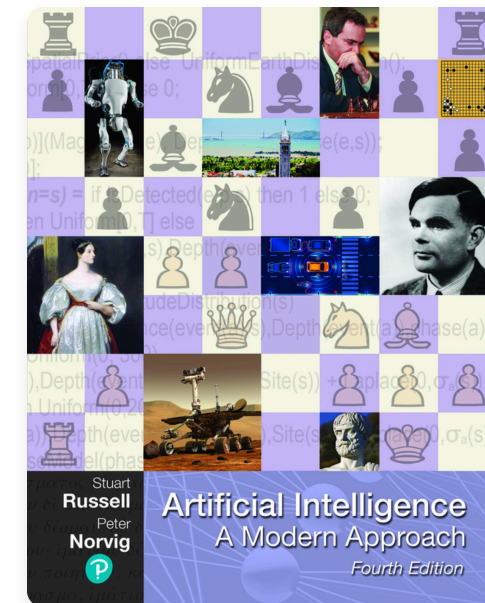

Artificial Intelligence

"The field of Artificial Intelligence (AI) is
concerned with

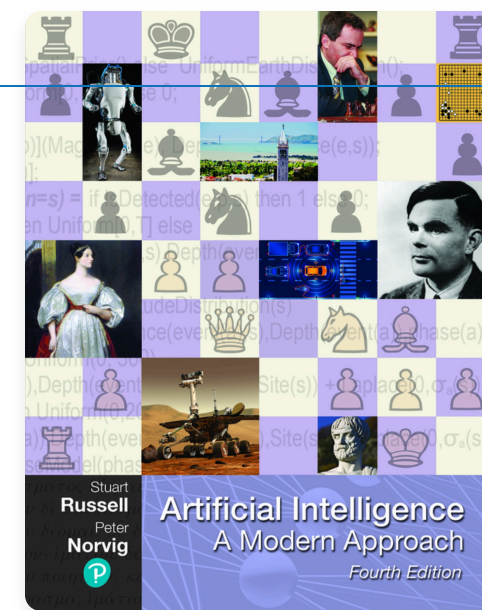

*understanding and building intelligent
entities*

".

*Stuart Russell and Peter Norvig, Artificial
Intelligence: A Modern Approach (4th Edition)*

Session 1 - The field of Artificial Intelligence (AI) is concerned with understanding and building intelligent entities"

The field of Artificial Intelligence (AI) is concerned with understanding and building intelligent entities"

Many Thanks!
